France Ribbons

QUI SOMMES-NOUS ?

France Ribbons est une entreprise française spécialisée dans la fabrication de liens d'emballage décoratifs et de communication.

Unique fabricant de bolducs de l'hexagone, nous nous attachons depuis près de 50 ans à préserver et enrichir ce précieux savoir-faire. Aujourd'hui, France Ribbons conçoit et fabrique une large gamme de produits commercialisée dans plus de 25 pays à travers le monde.

Du cadeau à la fleur, des métiers de bouche à l'industrie, notre société évolue dans des univers variés associant élégance et technicité. L'extrusion, le complexage et l'impression sont autant de techniques nécessaires au développement de produits adaptés aux exigences du marché.

Fabriqués à partir de coton, de papier, matières naturelles, ou de polypropylène, matière recyclable, nous veillons à intégrer l'écoresponsabilité dès le processus de conception de nos produits. Nous recyclons par exemple nos déchets d'extrusion pour la production de tubes, supports de nos bobines.

Avec près de 50 collaborateurs répartis sur deux sites de production, l'un dans les Vosges et l'autre dans le Haut-Rhin, notre objectif est de garantir une fabrication 100% française, une traçabilité, ainsi qu'une qualité de produits et de services.

Portée par des valeurs de respect, d'engagement et de responsabilité, France Ribbons place l'humain au cœur de son organisation. Nos équipes sont composées de femmes et d'hommes expérimentés partageant la volonté de satisfaire nos clients.

ABOUT US

France Ribbons is a french company specialised in the manufacturing of packaging ribbons for decoration and communication.

Unique and last manufacturer of curling ribbons in France, we are committed to preserve and enhance this unique expertise. For almost 50 years, France Ribbons develops and manufactures a wide range of products distributed in more than 25 countries around the world.

From gift to flower, from luxury to industry, our company operates in various markets combining creativity and technical constraints. Extrusion, laminating and printing are some of the essential skills we mix for the development of collections that meet the market requirements.

Made from cotton, paper, natural materials, or polypropylene, recyclable material, we are introducing eco-responsibility right from the beginning of our design process. For example, we recycle our extrusion waste for the production of our tubes, core of our spools.

With about 50 employees spread over two production plants located in the north-east of France, our goal is to provide a 100% French manufacturing with a high-quality level of products and services.

Driven by values such as respect, commitment and responsibility, France Ribbons places people at the centre of its organisation. Our teams are composed of skilled women and men that share the common objective to satisfy our customers.

Alimentaire

Trophées INPI
DE L'INNOVATION
2010

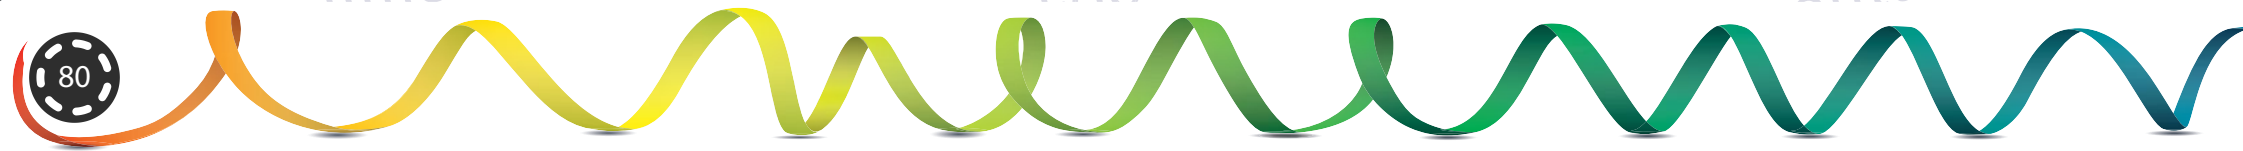

Le produit est conforme aux exigences de la réglementation en vigueur concernant les matériaux et objets au contact de denrées alimentaire, à savoir, le règlement européen 1935/2004 et le décret n°92-631. Cette conformité s'appréciant au regard de la directive européenne 2002/72.

Attestation de conformité sur demande.

Food contact

This product fully complies with the current applicable regulations related to materials and articles in contact with food (European regulations 1935/2004/CE, 2023/2006/CE, CE N°10/2011 and French Decret 2007-766 amended by Decret 2008/1469).

This compliance must be appreciated under the EU Directive 2002/72.
